Dean Student Welfare

Human beings are at the top of the pyramid of living beings with intelligence and the capacity to reason. Since time immemorial, in 'Bhartiya Sanskriti' (Indian Culture), it was already established that education is the only way to shape the human beings to realise potential of every individual, bring social harmony, and make the world peaceful and prosperous. With that discernment the 'Bhartiya Sanskriti' is known to have emphasised on learning and education. There was a unique way of imparting education, the 'Gurukul' system. In the ancient times there were many universities established to impart education. These Universities, like Takshshila and Nalanda Universities attracted thousands of scholars from India and abroad. Aspiring to keep alive the Bhartiya tradition, the Sharda University believes in holistic education whereby it endeavours to nurture, shape and empower every student to become a highly productive and responsible person. It strives to create an atmosphere whereby its students can develop a sense of purpose in life, have an independent thinking and more so can be innovative. A unique platform is provided whereby students from different regions, faiths, cultures, languages meet each other, spend unforgettable time together and in the process share and shape their views, ideas and knowledge. This culminates in a unique personality of its students which is a blend of best of diversified cultures. To top it all, Sharda University also organises various cultural, sports, festive events which offer the students from diversified walks of life to showcase their culture and also imbibe each other's cultures. Here lies a great opportunity to beget friends for life who are interconnected locally as well as globally with the prospect of making this process of personal and intellectual evolution a perpetual global phenomenon. To sum up, Sharda University is truly a multicultural university which not only imparts education to become a competent human being and pluralistic citizen of this beautiful world but also offers a platform to become a strong leader who can bring desirable changes in this world. It is an honour for me to be one of the engineers of change and serve as Dean Students' Welfare of this great institution. I exhort all the students to take cognizance of this opportunity and seize it for their own and mutual transformation for the benefit of one and all.

Dr. Nirupma Gupta
